No old stock. No duplicates. No. 1141 Fort St., next to Sisters' School.

APPROPRIATION BUDGET MAY BE DELAYED

Many Members Favor Forcing Governor's Hand
for an Extra Session—House Will Decide
at Once Its Attitude on Matter.

What will be done this session in regard to the appropriation bills will be decided within the next two days. The bills in the Senate have been laid over for later consideration and the House committee has not yet reported. There will be a meeting this morning which will settle the disposition of the lower body.

Some of the members of the lower house have expressed the opinion that it would be unwise to make any decided move with the appropriation bills at this time. They say that the organic act is mandatory as to the calling of an extra session by the Governor, in the event of there being no appropriation bills, and they are of opinion that they should work along till the end of the sixty days, on regular matters, and then get the extra session and the \$200 each.

Chairman Harris of the appropriations committee would not discuss the matter last evening, further than to say that he thought action should be had at once, so as to show that the legislature appreciated the action of Congress in making the term sixty days in length, and then if it proved impossible to complete the business, there might be action by the Governor, in the event he deemed the general legislation still hanging of sufficient importance to call the session into extra being, or to extend it. He said there would be some action by the appropriations committee, as he had the bills ready for reporting, and he thought the best thing was to put them in the possession of the House. Owing to the fact that it has taken two weeks to get a short report printed, there seems little chance that the measures will be printed and considered within the coming eleven days.

There is a mass of legislation on the docket of the House, though the outlook is that much of it will die a natural death if it is taken up for regular consideration. There will be hard work done in the next few days if it is decided to put over the appropriation measures, so that the extra session is necessary for their consideration, as the members will pile up as heavy a mass of legislation as possible, so that the Governor will have his hands full to read and pass upon the measures.

PRESIDENT LOUBET'S RECEPTION IN ALGIERS

ALGIERS, April 15.—President Loubet has been enthusiastically received here today. Most extensive demonstrations have been made in his honor and the city is gay with fetes to celebrate the first visit of a French President to this colony.

Emile Loubet, President of France, is extremely democratic and cares little for the social side of life—that is the formally social life. He constantly shocks his fellow Parisians by his cordial, "good fellow" ways of doing things. His administration so far has been one of the strongest France has had since the beginning of the Third republic. The president of France has little direct power but may have a great indirect influence and this is what Loubet has exerted. The result has been that he carried France safely through the Dreyfus crisis. His administration so far, instead of being commonplace, has in many respects been brilliant, and his personal unpopularity with the mob has steadily decreased since the day the Royalists assaulted him on the Longchamps race course. He is not an "Idol of his people" in the jingo sense but commands the respect of every Frenchman whose respect is worth having. It is likely that he will visit America

PRESIDENT LOUBET.

soon, attending the Louisiana Purchase Exposition at St. Louis.

STEREOPTICON VIEWS AT Y. M. C. A.

Tonight the friends of the Y. M. C. A. and Y. W. C. A. will have their third lecture, "With an Invading Army," in aid of the proposed Vacation Homes at Wahiawa. The lecture will be given by Walter G. Smith, who was war correspondent of the San Francisco Chronicle during the Japanese invasion of China in 1894-5. It is practically the same one delivered by him in Golden Gate Hall and Metropolitan Temple, San Francisco, at the conclusion of the war. Besides about eighty stereopticon views, Mr. Smith will show some uniforms taken from the Chinese on the battlefield.

WHAT IS PAIN BALM?

Chamberlain's Pain Balm is a liniment, and while adapted to all the ordinary uses of a liniment, has qualities which distinguish it from other remedies of this class. Pain Balm is especially beneficial for rheumatism. Thousands of cases can be cited in which this remedy has effected a cure when the sufferer had previously tried the best medical service without securing relief. Pain Balm is positively guaranteed to give relief in the most severe cases of chronic or acute rheumatism.

Pain Balm heals bruises, burns and scalds in less time than any other treatment. It is "antiseptic," that is, it prevents putrefaction, and by so doing generally prevents an unsightly scar remaining after the injury is healed. For lame back, lumbago and neuralgia, Pain Balm has no equal. It has the quality of "getting to the right spot." No sufferer from these distressing affections should defer a trial of this remedy. One application gives relief. Try it. Benson, Smith & Co., Ltd., wholesale agents, sell it.

The only places where the new laws can be found are in the Advertiser and the Official and Commercial Record.
